

Publications, Products and Tools Overview

Part one: At farm level

Guidelines

Global overview with examples: short guide to sustainable agriculture:

[http://www.saiplatform.org/uploads/Library/short_guide_to_sa_-_final\[1\].pdf](http://www.saiplatform.org/uploads/Library/short_guide_to_sa_-_final[1].pdf)

Principles and Practices for the sustainable production of arable and vegetable crops:

<http://www.saiplatform.org/uploads/Library/PPsArableVegetableCrops2009-2.pdf>

Principles and Practices for the sustainable production of coffee:

<http://www.saiplatform.org/uploads/Library/PPsCoffee2009-2.pdf>

Principles and Practices for the sustainable production of dairy:

<http://www.saiplatform.org/uploads/Library/PPsDairy2009-2.pdf>

Principles and Practices for the sustainable production of fruit:

<http://www.saiplatform.org/uploads/Library/PPsFruit2009-2.pdf>

Principles and Practices for sustainable water management at farm level:

<http://www.saiplatform.org/uploads/Library/Principles%20and%20Practices%20for%20%20Sustainable%20Water%20Management%20At%20a%20farm%20level.pdf>

Practical Tools

An impressive library of practical tools helping farmers and agronomists implement sustainable practices at farm level – such as handbooks for coffee farmers, technical briefs on water technologies and tools etc:

<http://www.saiplatform.org/library> (in “Document type”, select “Practical Tools”)

Many standards and guidelines related to sustainable agriculture:

<http://www.saiplatform.org/library> (in “Document type”, select “Guidelines”)

Benchmark against other schemes

Benchmark of 25 standards and schemes against SAI Platform Principles and Practices:
[http://www.saiplatform.org/uploads/Library/SAI_rev2_final_%20\(Benchmarking%20Report\)-2.pdf](http://www.saiplatform.org/uploads/Library/SAI_rev2_final_%20(Benchmarking%20Report)-2.pdf)

A detailed, online database containing 75+ global standards, schemes, codes etc. which can be benchmarked against our Principles and Practices:
<http://www.standardsmap.org/> (for members a special access code for trial provided by SAI Platform secretariat until August 15, 2012)

How to measure progress at farm level?

Sustainability Performance Assessment (SPA) : Guidelines for developers of quantitative monitoring tools: <http://extranet.saiplatform.org/documents/detail/document/713>

For members only

Accompanying One-pager on SPA:

<http://www.saiplatform.org/uploads/Modules/Library/spa-onepager-may2012.pdf>

Accompanying Q&A on SPA:

<http://www.saiplatform.org/uploads/Modules/Library/spa-qa-may2012.pdf>

Background work – benchmark of all existing indicators:

<http://extranet.saiplatform.org/documents/detail/document/545>

For members only

Background work – benchmark of existing measurement tools:

<http://extranet.saiplatform.org/documents/detail/document/681> and table

<http://extranet.saiplatform.org/documents/detail/document/679>

For members only

Financial Sustainable Farming Tool - developed for and as an initiative of the working group Arable & vegetable crops, now available for on farm trials (upon request).

For members only

Learning from Others

Concrete examples of sustainable agriculture programmes worldwide:

[http://www.saiplatform.org/uploads/Library/short_guide_to_sa_-_final\[1\].pdf](http://www.saiplatform.org/uploads/Library/short_guide_to_sa_-_final[1].pdf)

Seminars and Webinars on a wide range of issues such as: ecosystems preservation, ICT standards map, tools to measure farms' sustainability

<http://extranet.saiplatform.org/groups/detail/group/12>

For members only

Videos illustrating good practices:

<http://www.saiplatform.org/videos>

With three excellent teaching videos on soil & soil health –from our 2011 seminar:

http://www.saiplatform.org/uploads/videos/12_02_15-Saip_Video_1.flv

http://www.saiplatform.org/uploads/videos/12_02_15-Saip_Video_2.flv

http://www.saiplatform.org/uploads/videos/12_02_15-Saip_Video_3.flv

Green House Gas Emissions, LCAs and PCRs

Dairy sustainability website, including:

- Global dairy agenda for action
- Green paper with concrete examples
- Dairy LCA guide

<http://www.dairy-sustainability-initiative.org/Public/>

Soon to come:

Coffee PCR guide
(in 2013)

Part two: At company and supply chain levels

Executives Training

Material related to the last edition of SAI Platform-IMD Training entitled “Embedding Sustainable Sourcing Strategies in Companies”:

<http://www.saiplatform.org/activities/training/executives-training>

Including, in particular:

Full minutes of the two-day training, with web links: <http://www.saiplatform.org/uploads/Modules/Library/imd-sai-platform-master-class---may-2012---minutes.pdf>

Unilever Lipton Sustainable Tea Case Study: <http://www.saiplatform.org/uploads/Modules/Library/imd-casestudyunileversustainabletea.pdf>

Next edition of the Executives Training at IMD's in Lausanne on June 3-4, 2012

Special discounted fee for member companies. Limited number of seats.

Contact our secretariat for more information and to pre-register.

Publications

An impressive library of publications related to sustainability:

<http://www.saiplatform.org/library>

Learning from Others

Seminars and Webinars on a wide range of issues such as “everything you wanted to know about LCAs”, SPA etc: <http://extranet.saiplatform.org/groups/detail/group/12>

For members only

Videos featuring some of our members’ top Executives highlighting the challenges and opportunities related to sustainable agriculture and sourcing:

<http://www.saiplatform.org/videos>

Practical Guide Sustainable Sourcing for Practitioners

Soon to come:

Practical Guide on Sustainable Sourcing
(November 2012)
