Welcome to the 9th GFRAS Annual Meeting!

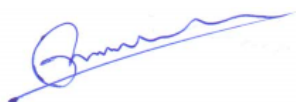

GFRAS was initiated in 2010 to provide advocacy and leadership on pluralistic and demand-driven extension and rural advisory services (RAS) for sustainable development. It seeks to strengthen RAS by providing a platform for learning and exchange for stakeholders in agricultural innovation systems. This year's Annual Meeting is the ninth edition of the global event and is co-organised with the Rural Develop Administration (RDA), Republic of Korea.

The GFRAS Annual Meeting is a key mechanism for GFRAS to foster learning and exchange and to discuss and strengthen the functioning of GFRAS, its regional networks, and country fora. This year, the meeting will once again provide an opportunity for stakeholders from different sectors, regions, ages, and gender to exchange knowledge, network, and learn from each other.

Since its first edition, the GFRAS Annual Meeting has involved a thematic component, a functional component focused on strengthening the networks, and field trips. This edition also includes a policy roundtable. This year's thematic component focuses on developing partnerships in RAS, for addressing new challenges and seizing new opportunities.

The topic is linked to a widely recognized critical priority in global development across sectors – developing and strengthening effective partnerships and building capacities among different organisations for joint action. The functional component will focus on strengthening the capacities of GFRAS and its regional networks to play an important and meaningful role in developing, strengthening, and maintaining effective partnerships. The field trips will provide an insight into Korea's public agricultural extension services. The policy roundtable explores the roles that the enabling environment plays and identifies structural and policy changes needed in order to foster effective partnerships in RAS.

We are extremely grateful to the Republic of Korea, and RDA in particular, for their hospitality in welcoming the GFRAS Annual Meeting. We also wish to thank the Organising Committee, moderators, GFRAS Steering Committee, and Secretariat for their advice and support throughout the preparatory process. Special thanks are also due to all organising partners (see pages n. 5 & 6) for their highly professional collaboration that has gone towards making this meeting possible. We look forward to a productive and enriching meeting!

Rasheed Sulaiman V
Chair, GFRAS Steering Committee

Kim, Sang Nam
Director General of Extension Service Bureau
Rural Development Administration (RDA)

Content

This meeting guide is intended to provide basic background information on different meeting components and guide you through the main meeting points. More detailed information can be found on the Annual Meeting website as well as on the GFRAS USB stick provided to you at registration which contains meeting documents and presentations, as well as all GFRAS publications.

Should there be changes in the programme or room allocation, the moderators will inform you of this during the meeting.

Local Partners

The 9th GFRAS Annual Meeting could not take place without the invaluable support from local partners. This year, RDA, APIRAS, and RICKI have all contributed towards creating an invaluable learning experience.

RDA

RDA is a Korean governmental organisation that is responsible for agricultural research, rural extension services and international technology cooperation. Through these activities, RDA contributes to sustainable agriculture and enhancing the people's livelihoods.

Korean Agricultural R&D and Extension Services are led by the government. Under the main organisation, RDA, there are 165 local extension centers at city and county levels which facilitate new programs and technologies spread effectively and quickly across the nation. This system has been appreciated as a good extension system model nationwide.

This annual meeting will be a great chance for participants to see and experience Korean RAS and best practices in addition to the great economy development of Korea which was achieved in short time, the beautiful Korean scenery and its culture.

RDA wishes that this annual meeting draws to strengthen networks across regional networks as well as sustainable development in agriculture and rural communities, and would like to express their sincere gratitude to the GFRAS Secretariat, GFRAS Organising Committee and Steering Committee for contributing to organising the 9th GFRAS Annual Meeting.

APIRAS

APIRAS was formally organised during the Regional Forum on Strengthening Rural Advisory Services in the Asia-Pacific Region at the Southeast Asian Regional Center for Graduate Study and Research in Agriculture (SEARCA) in Los Baños, Laguna, Philippines, with Dr. Virginia R. Cardenas chosen as the Regional Network Coordinator.

Its vision is to become an apex organisation of RAS networks, providers, and stakeholders in the Asia-Pacific region, aggregating, synthesizing, and sharing innovations and best practices, through capacity-building, policy advocacy, and knowledge sharing.

With a mission to strengthen institutional collaboration among global, regional, and subregional RAS networks towards responsive capacity development, knowledge management, and policy advocacy in the Asia-Pacific region.

In the long-term, APIRAS hopes to foster a favorable policy environment to achieve food and nutrition security, alleviate rural poverty, enhance community resilience to extreme weather events, social, and economic instability.

RICKI

The Rural Innovation Centre for Knowledge and Investment (RICKI) is a regional network of GFRAS in East Asia. It values effective, demand-driven and sustainable innovation systems in agricultural and rural development.

RICKI conceptualises innovations as a process that needs to be facilitated within an ecosystem that aligns the interests of multiple stakeholders through market mechanisms and investment.

RICKI carries forward the vision of GFRAS in the region and takes actions to strengthen the capacities of rural advisory services so as to effectively contribute to agricultural innovation systems for sustainable development.

The mission is to provide advocacy and leadership on pluralistic and demand-driven rural advisory services for sustainable development. The alliance of RICKI rallies partnerships with public and private stakeholders in China, Korea, Mongolia, and Japan.

Since its inception, RICKI has successfully hosted and jointly organised a number of regional and global events and is becoming an emerging knowledge facility towards its mission and values.

Agenda

MONDAY, 22 OCTOBER

7:00-20:00 Main Building	Registration
9:00-12:30 See page 11 for room allocation	Side events <ul style="list-style-type: none">• APIRAS: Discussion of Capacity Development Plan and Framework for Monitoring, Evaluation, and Learning• CIRAD/RESCAR-AOC/GFRAS with the support of AFD/DLEC: Rural Advisory Services in West and Central Africa: Challenges, Policy Recommendations, and Agenda for the Future• FAO: Exploring the Complex Universe of Agricultural Extension and Advisory Services: Guidelines for Assessing Pluralistic Systems at the National Level• Youth Working Group: Group Launch - Engaging Youth in and for Rural Advisory Services in Agricultural Innovation Systems

Side Events

Side events are organised by partner organisations that are present at the GFRAS Annual Meeting and want to profit of the large gathering of members of the RAS community to discuss select topics.

Side events are held on Monday, 22 October and are upon registration only. For more details see the Annual Meeting website.

MONDAY, 22 OCTOBER

08:30-12:30

Seminar Room

APIRAS: Discussion of Capacity Development Plan and Framework for Monitoring, Evaluation, and Learning

This side event aims to work on a capacity development plan for APIRAS, as well as to work on a monitoring, evaluation, and learning framework. On this occasion, the APIRAS Steering Committee meeting will also take place.

08:30-12:30

Conference Room

FAO: Exploring the Complex Universe of Agricultural Extension and Advisory Services: Guidelines for Assessing Pluralistic Systems at the National Level

This event will serve as an occasion to present the first draft of the Assessment Methodologies for Agricultural Extension and Advisory Services System. Upon validation of its draft, FAO hopes to acquire concrete feedback and suggestion in order to improve it, and present to a wider range of stakeholders at its Agricultural Innovation Symposium for Family Farmers.

08:30-12:30

Room #130

CIRAD/RESCAR-AOC/DLEC: Rural Advisory Services in West and Central Africa: Challenges, Policy Recommendations and Agenda for the Future

This event will work towards the identification of ongoing initiatives in the area, and a platform for big actors operating in the region to share their experiences. Potential synergic actions around the main points will be discussed, with the goal to develop an actionable follow-up in the region.

08:30-12:30

Room #112

GFRAS Youth Working Group: Launch - Engaging Youth in and for Rural Advisory Services in Agricultural Innovation Systems

This Working Group that advocates for youth involvement in and for RAS will be formally launched at the 2018 GFRAS Annual Meeting. During this side event, the main goal is to kick start the creation of a knowledge platform for youth in RAS, and discuss: what is the status of youth engagement in RAS in different contexts, the challenges and opportunities for engaging youth in RAS, and success stories to be featured in a knowledge platform to raise awareness on the need for stronger youth engagement in RAS.

Market Place

The Market Place is a tradition at GFRAS Annual Meetings. It offers participants the opportunity to share and peruse information and materials on the latest RAS programmes, distribute important publications, present and exchange new ideas, and get inspired. The market place opens Monday, 22 October, at 17:00, before the official meeting opening and stands will remain available for visitation until Thursday, 25 October. The presenters will be at the stands for questions or discussions on Monday, 22 October, between 17:00-18:00.

MONDAY, 22 OCTOBER

17:00-18:00

Parallel Sessions

After having set the stage in the plenary sessions in the morning of October 23, the Parallel Sessions will provide participants with the opportunity to have in-depth discussions, and reveal opportunities, challenges, and important next steps for strengthening partnerships in RAS.

This will be done through the lens of three key partnership aspects: Smart Technologies, Innovative Financing, and Collaboration and Coordination.

TUESDAY, 23 OCTOBER

15:15-17:00

Conference Room

Smart technologies for effective partnerships in RAS

Facilitator: Vanh Mixap

Learning tools for farmers organisational development to strengthen partnerships in advisory services

Speaker: Elliot Zwane

PROCAGICA: Strengthened advisory services through improved peer collaboration of extension teams via methodological tools

Speaker: Fernando Barrera Arenas

Smart technologies for enhanced partnerships in RAS: an overview

Speaker: Saravanan Raj

15:15-17:00

Room #112

Innovative financing towards effective partnerships in RAS

Facilitator: Andrea Bohn

Innovative financing of RAS

Speaker: Magdalena Blum

New ways of financing of RAS: reporting back from the RICKI meeting

Speaker: Xiangping Jia

Seizing and scaling Corporate Social Responsibility (CSR) for improving public extension services

Speaker: Mahesh Chander

15:15-17:00

Seminar Room

Convergence through collaboration and coordination in RAS

Facilitator: Nancy White

Agriculture-nutrition interface: addressing the challenges of inter-disciplinary and institutional coordination for improved rural household nutrition in Uganda

Speaker: Margaret Najjingo Mangheni

Collaborating on multi-agency projects - strategies and lessons learned from two community garden projects in South Carolina and Florida

Speaker: Norma Samuel

Collaborating with government agencies to reach a common goal

Speaker: Brian Tairea

Pluralistic service systems - putting lessons learned into practice -Egyptian Model

Speaker: Amira Mahmoud

Field Trips

As you travel out to your field trip, please use the Field Trip Sheet to capture your key insights. You will be sharing them with your peers on Thursday morning (25 October).

8:00-8:30

Conference Room

Briefing: Introduction to Korean RAS

- Mr. Sueng-oh Yoo, Director of Research and Development (R&D) Extension Division, RDA, Republic of Korea

8:40-18:00

Korea's Extension System

The Rural Development Administration (RDA) at the national level, Agricultural Research and Extension Services at the provincial level and Agricultural Extension Center at the city/county level will be visited to learn about how the government leads the research-extension system for dissemination of advanced technology.

Value Chain

This field trip will provide a learning experience on the value chain approach. Places to be visited include an agricultural product processing center, a local food store, a small scaled start-up farm and an educational farm.

Smart-Farming

This field trip includes a visit to smart-farming research and test-bed using ICT in RDA and outstanding smart-farm. Also, the fourth industrial revolution such as ICT application case in farming and development plan of smart-farming will be showcased.

Rural Youth

The training program for fostering rural youth and encouraging them to engage in agriculture will be introduced through this field visit to Korea National College of Agriculture and Fisheries and visit to a successful rural youth's farm producing traditional snacks and breeding livestock.

Farmers' Groups

Visit to the farmer's study group and Korea Extension Specialist's group that are operating self-learning activities for farmer and extension agents. The various studies on income generating model of farmer's group and organizational characteristics will be discussed. Also, the activity of Korean Rural Leaders Central Association, Rural Women Leader's Federation and 4-H and organizational character, project, and role of National Agricultural Cooperative Federation will be introduced.

Reporting & Sharing

Do you want to share the contents of the meeting with colleagues, extensionists, farmers, programme implementers, policy makers, and/or others in the agricultural innovation system in your country or region? Or do you want to make sure your learnings and personal key messages make it back home with you? The following reporting activities, processes, and templates will help you with this during and after the meeting.

During the Meeting

Share impressions of the meeting through **social media channels**:

Twitter #gfras18 or #gfras2018 also on Facebook
(<https://www.facebook.com/groups/gfras/>)

Personal meeting assessments forms:

Keep track of your very personal most important learnings and highlights, contacts you made, websites you want to visit, etc.

Collaborative note-taking: links to shared Google docs will be promoted, where participants can take notes about the different sessions.

The network's little Annual Meeting diary:

Write roadmaps, recommendations, and conclusions in your network's notebook. GFRAS will collect them and keep them safe until the next Annual Meeting.

Exhibitions & Displays

Participants will have a chance to stop by three exhibitions at the RDA, and explore them anytime during the meeting:

- **Outcomes of Agricultural R&D and Extension** will be on display from 22 to 26 October and allow participants the chance to see Smart Farm models.
- The **Agriculture Science Hall** is a reflective place, presenting the past, present, and future of agriculture, its relevance, and latest technologies. This hall contains, among others, a Modern Agriculture Exhibition, a 4D Theater, and The Hall of Fame in Agriculture.

After the Meeting

Find the following documents on the Annual Meeting website after the meeting has concluded:

- The **final agenda** and **final participants list**
- A **short meeting report**, including **key recommendations** for various actors related to RAS
- **Visual reporting** by Nancy White and the facilitation team
- **All opening and closing remarks, presentations, and keynotes** in their original form
- **Video** of selected plenary inputs
- **Detailed summaries** of all sessions and **blogs** from the field trips
- A list, including contact details, **of all share fair stands and side events**
- The **declaration** drafted and agreed upon during the meeting

Meet the Team

While the GFRAS Annual Meeting thrives on the contributions and participation of every person present, a team of people is working behind the scenes to ensure the event runs as smoothly as possible. In case of questions or problems, please don't hesitate to approach one of the friendly resource people below.
