

## CURRICULUM VITAE

1. **Surname** KOUWOAYE
2. **First Name** Frederick Ablam
3. **Birthday** 07 Dec 1972
4. **Nationality** Togolese
5. **Residence** 02 BP 20816, Lomé-Cite, Togo
6. **Tel** +228 90 340 305
7. **Email** [fablamk@yahoo.fr](mailto:fablamk@yahoo.fr) (preferred) [fkouwoaye@hotmail.com](mailto:fkouwoaye@hotmail.com) (backup)
8. **Education & Training**

### Education

Institutions, Place & Date	Course & Diploma
CRESA/ University of Niamey, <b>Niger</b> ; 2003 - 2005	Farming Systems Improvement & Environment <b>Master of Sciences</b>
University of Lomé, <b>Togo</b> ; 1994 - 2000	Agronomy <b>Agricultural Engineer</b>

### Trainings

Institutions, Place & Date	Course & Certificates
Rainforest Alliance <b>Ghana</b> ; 4-8 March 2013	Rainforest Alliance, Sustainable Agriculture Network/ SAN Standards, Audit, Chain of Custody, Traceability & Certification
Grolink & Sida <b>South Africa</b> ; 11-23 June 2011	Organic Agriculture: Production & Sector organization - Policies and advocacies - Value chain & Market development - Organic farms' visit
UNITAR & UNEP-UNCTAD CBTF on Trade, Environ & Dvpt <b>Online training</b> ; 2-27 Nov 2009	Successful Organic Production and Export: Organic agriculture, Rural development, Food security & Climate change - Value chain development - Organic processing - Organic market & trade - Organic production & Challenges
Grolink & Sida <b>Kenya</b> ; 9-22 January 2007 <b>Sweden</b> ; 29 July -18 Aug 2006	Organic Agriculture Development: Production, Food Security & Safety, Nutrition, Health - Policy & Advocacy - Climate Change - Standards - ICS - Marketing - Agriculture, Gender & HIV/AIDS - Fair Trade - Proposal writing - Project development, audit, evaluation, certification
EPFL, EIER, ENDA-TM <b>Senegal</b> ; Oct - Nov 2003	Urban Environment Management: Urban project - Participatory learning - Community mobilization - Proposal writing - Decentralization
Swiss Federal Institute of Technology/EPFL, Lausanne <b>Switzerland</b> ; 3-28 Sept. 2001	Urban Environment Management in South Countries: Sanitation & Waste Management - Risk analysis - Ecotoxicology - Participatory learning - Research, Action & Training - Decentralisation
USAID Ghana & IMO <b>Ghana, Togo</b> ; 2003 - 2010	<ol style="list-style-type: none"> <li>1. Organic Agriculture, Project Inspection &amp; Certification: Standards / Regulations (UE, NOP, JAS, BS, NL...) - Intern Control System (ICS) - Quality assurance - Product flow control &amp; Traceability - Audit and Evaluation of projects (farm, smallholder groups, wild collection)</li> <li>2. GLOBAL G.A.P.</li> <li>3. Quality management, Food safety &amp; Conformity assessment: HACCP - ISO 22000-2005 &amp; 9001-2000 - Hygiene</li> <li>4. IMO "Fair for Life" Social &amp; Fair trade programme (SFT)</li> <li>5. Audit principles, procedures &amp; technique - Psychological aspects &amp; Communication</li> </ol>

**9. Language skills** (1 = excellent; 2 = very good; 3 = good; 4 = fair; 5 = weak)

Language	Reading	Speaking	Writing
French	1	1	1
English	1	1	1
Ewe	2	1	2
German	5	5	5

**10. Present occupation**

Freelance Consultant & Service Provider in Agronomy, Crop Production & Food Security - Organic/ Sustainable Farming - Quality Assurance, Food safety & Ecology - Land management - Environment

- Crop & animal production - Horticulture /Arboriculture - Farming system improvement & Sustainable farming - Soil fertility & conservation - Crop protection
- Organic agriculture & Sustainable collection of non-timber forest products (NTFP) project development - ICS - Quality assurance - Food safety & security - Produce marketing
- Agricultural, product, private sector & rural development: Smallholder agriculture, Income generating activities & Food security - Organization of small growers' groups - Development of agricultural SME - Coordination, monitoring & evaluation of projects - Value chain development - Product storage & processing - Diagnosis, Feasibility studies & Proposal development
- Inspection, audit, evaluation and certification of agricultural projects or companies: Production, Product processing, export and quality assurance as per standards(Organic, Global G.A.P., HACCP, Food safety, Traceability, Social accountability)
- Quality assurance, Standards assessment & Certification: Organic agriculture - HACCP, Hygiene & ISO 22000 & 9001 - Global G.A.P. - Health, safety & environment (HSE) - Traceability - Risk analysis
- Natural resource management (NRM) & Environment: Soil restoration, reclamation and conservation - Water protection - NTFP - Biodiversity - Landscape - EIA
- Capacity building, Technical support, advice and knowledge-sharing - Training of trainers, smallholders, communities, auditors, inspectors - Awareness-raising

**11. Number of years of professional experience:** 11 years**12. Technical Skills & Experience**

Fieldwork - Research, surveys, data collection and processing - Training & Elaboration of training material - Professional reporting & verbal communication skills - Various technical and social field surveys & multidisciplinary work experience - Development, set up, audit, evaluation and follow-up of agricultural projects/SME (food production and processing) - Organic production projects, smallholder agriculture and value chain development - Quality assurance, produce marketing and export

- 12 year post-university hands-on working experience in agronomy, rural and community development, agricultural and NTFP harvest/collection, project development, monitoring and evaluation, capacity building and trainings, with

- 8 year continuous experiential fieldwork, survey, research experience in West and Central Africa in

\* Food production, livelihoods enhancement and food security, land management, project building

\* Smallholder agriculture and Organic farming project development

\* Capacity building and training in agricultural and organic SME development, coordination and monitoring, sustainable harvest of NTFP project development, organic project building, standards, regulations and certification, project building and internal control system, quality assurance and food safety, supply chain management and traceability, producers group organization, diverse crop production, good agricultural practices (GAP), product and value chain development, soil fertility and conservation, organic pest/disease management, sector development, policy and advocacy, NRM, feasibility studies, and

\* Audit/inspection, evaluation and follow-up of projects.

This experience spans more than 30 small and medium-sized agricultural enterprises in the fields of production, post-harvest activities (transport, storage, packing/packaging), processing, value chain analysis and development, value-added strategies, quality assurance, marketing, export.

- 5 year Global G.A.P., Food safety, Health and Social accountability audit expertise

- 2 year field experience with IFDC in fertilization/crop nutrient management in urban agriculture with market gardeners groups and rainfed rice production with small scale farmer groups, and
- additional 3 years of volunteer working experience with vegetable and staple food producers in capacity building, training in organic farming, soil nutrient and integrated pest/disease management, agroforestry, composting, seed/seedling production, crop rotation, and sensitizing on health and environment effects of pesticides, and
- Over 20 years in diverse crop production and processing in family holding.

Various experiential fieldworks, surveys, researches with smallholders' projects in West and Central Africa through capacity building, training, inspection, audit and evaluation of projects, and through development of smallholder agricultural enterprises allow me to have great familiarity with and good grasp of smallholder agriculture sector. Likewise I get strong and proven experience in production, processing and export of diverse staple food, cash and horticultural crop including cereals (maize, rice, sorghum, millet), pulses (beans, cowpea, Bambara pea, pigeon pea), roots & tubers (cassava, yams, potatoes), stimulants (cocoa, coffee), oleaginous (coconut, peanut, oil palm), fruits (pineapple, citrus, banana, mango...), vegetables, herbs and spices on the one hand, and in smallholder projects of sustainable harvest of NTFP on the other hand.

I am well imbued with different constraints and challenges (production, organizational, technical, social, cultural, political, environmental, economic) that smallholders and projects of smallholders cope with, and I have experience and skills in development of strategies and approaches needed to take them up. This experience stretches over different agro-climatic zones and agro-ecosystems from Ivory Coast to Cameroon with diverse agricultural communities and enterprises, smallholders, farm estates.

- Strong field and community work experience with remarkable insight into diagnosis and analysis of rural, community and agricultural sectors, and development of adaptable solutions
- Very broad experience in pro-poor project development at grassroots level and good understanding of lore as well as socio-cultural, political, economic factors in force in communities that control community and production decisions (Cameroon, Nigeria, Ghana, Niger, Ivory Coast, Senegal...).
- Years of continuous work with and monitoring of projects in different countries have enabled me to deepen my skills and knowledge as well as to acquire broad experience in wide range of commodities production - Rural and community development - Land tenure - Sustainable agriculture - SME development, evaluation and certification procedures - Organic standards implementation - Various crop cultivation, staple and cash crops - Report writing.
- Involvement in diverse self-help/volunteer groups for agricultural, nature protection and social activities: advice, public awareness, reforestation action, sanitation and hygiene, education
- Proposal development - Research, Action & Extension - Participatory methodologies.
- Computer literacy: Word 2003-2007; Excel 2003 -2007; Internet; Power Point.

### 13. Country working experience

Country	Start - End
Cameroon	2009 - 2012
Ghana	2003 & 2005 – 2013
Ivory coast	2007, 2010, 2011
Niger	2004 - 2013
Nigeria	2007 - 2010 & 2013
Switzerland	July - Oct. 2000
Togo	1985 ongoing

**14. Key professional experience**

Start-End	Place	Institution	Position	Description
2005 - 13	Ghana	SME: - Fruits & vegetables growers groups / associations: Volta mango grower association; Agrobio, Agro-Filiere, Tropic Bio...  - Coffee, cocoa, spices production projects: Yayra glover, Barbex, GIC-Sondason, Kitampo ginger growers associations...  - Women cooperative of shea nut collection and processing  - Oil & essential oil production: Barbex, Fairless planet...	Technical Assistant, Trainer, Adviser & Service provider	<ul style="list-style-type: none"> <li>• Institution Strengthening               <ul style="list-style-type: none"> <li>• Organizing projects, SME, associations and growers' groups • ICS development</li> <li>• SWOT analysis • Risk analysis • Performance appraisal</li> <li>• Training &amp; capacity building; Staff &amp; team building; Assisting projects in setting up internal control documents for activities follow-up and for quality assurance</li> <li>• Policy formulation, Strategy development</li> </ul> </li> <li>• Sector Organization &amp; Development - Project Building - Crop production &amp; Food security               <ul style="list-style-type: none"> <li>• Crop &amp; animal production: organizing production • developing products and value chain • planning and coordinating field activities</li> <li>• Smallholder agriculture &amp; Community development: Contracting agriculture • Smallholder group building and organization • Growers and field staff training • Contract formulating and liabilities • Production organization • Field activity supervision and control • Value chain development • Supply chain organization and management • quality assurance</li> <li>• Organic agriculture &amp; Sustainable NTFP harvest: developing project • organizing growers • setting up internal standards and ICS in smallholder projects • developing human resource, competence, product, product quality and risk analysis system • developing quality management plan • complying with market requirements • certification</li> <li>• Quality assurance: Risk and hazard analysis (risk evaluation; management tools development) • Training • Implementation of and compliance with internal procedures, export and market standards (Organic, HACCP, Global G.A.P.) • Food safety</li> <li>• Certification, Access to niche markets &amp; Income enhancement: Viability studies guiding producers prior to enrolment in certification scheme (Organic, Global G.A.P., HACCP, Fairtrade) • Policy, manual, procedure development • ICS • Internal inspection • Organic produce harvest, handling, storage, packaging • Quality control system • Market and export chain requirement conformity • Traceability</li> <li>• Company matching: Introducing producers to buyers locally, regionally or internationally; Organizing produce marketing and developing export chain</li> <li>• Income generating activities, Livelihoods enhancement &amp; Food security: Analysing production systems in place • identifying and developing alternate crop and/or animal production activities or opportunities (horticulture, crop diversification, off-season cropping, animal production on a small scale level...) resulting in income generation and improved nutrition</li> <li>• Feasibility studies • SWOT analysis of production systems • Development of improvement plan</li> </ul> </li></ul>

2007, 2008, 2009, 2010	Cameroun Ivory Coast Togo	- AgroEco & Cargill - Growers groups of cocoa and coffee	Consultant	<p>Pre-feasibility studies for organic and sustainable cocoa project development</p> <ul style="list-style-type: none"> <li>• Exploratory mission, Research, Consultations with key actors &amp; sector diagnosis</li> <li>• Production site visit: farms, facilities/equipment, production cycle and techniques, warehouse</li> <li>• Diagnosis of cocoa production sector on agronomic, technical, organizational, ecological, social, institutional, economic levels: sector organization • production systems • land tenure and management • gender • performance assessment • post-harvest treatment • value chain and quality management (fermentation, drying, flavour, taste, sorting, purity, packaging) • marketing chain • identification of opportunities, constraints and challenges • solution proposition</li> <li>• Risk &amp; Training need analysis</li> <li>• Debriefing, Report &amp; Recommendations</li> </ul>
2007- 09	Togo	University of Lomé	Tutoring	Course development & Teaching - Responsible of Module: "Agriculture, Energy & Climate Change"
1999- 00 & 2004	Togo	International Fertilizer Development Centre, IFDC	Researcher & Field Coordinator	<p>Smallholder Agriculture: Horticultural crops (Urban Agriculture) &amp; Rice Production</p> <ul style="list-style-type: none"> <li>• Research: Integrated soil fertility management &amp; Farmer field school (FFS) approach • Questionnaire design • Participative diagnosis and farming system SWOT analysis • Data collating</li> <li>• Mobilization, organization and training of market gardeners and farmers • FFS with growers for enhancement of observation, grasp and research capacities through on-farm research</li> <li>• Set up of experimental plots &amp; Implementation of field activities with farmers: irrigation, manure/ fertilizer application, weed/pest &amp; erosion control • Data collection, harvest, yield estimate, soil restoration and reclamation, NRM</li> <li>• On-farm briefing sessions • Follow-up &amp; Performance evaluation with farmers • Training</li> <li>• Field report • Results analysis &amp; Dissertation writing • Recommendations • Extension</li> </ul>

Oct -Nov 2003	Senegal	EPFL, EIER, Enda TM	Training associate	Urban Project development with Urban Community of Fandène, Thiès <ul style="list-style-type: none"> <li>• Awareness-raising • Community mobilization and Bottom-up approach use</li> <li>• Participatory diagnosis: data collection • identification of strengths, weaknesses, problems, conflicts</li> <li>• Identification of needs • Priority definition • Project elaboration;</li> <li>• Meeting with government authorities and local development committee for debriefing</li> </ul>
2002 - 03	Togo	Self employment	Farm manager	Vegetable production • Animal husbandry • Nursery raising • Citrus & mango tree planting
2001, 1997- 00 & 2010 ongoing	Togo	Rural communities, Smallholders & Market gardeners	Volunteer & Community developer	Agricultural & environment project development with market gardeners and staple crop growers <ul style="list-style-type: none"> <li>• Support to rural associations and growers groups development and organization</li> <li>• Capacity building &amp; training in Conservation/ Sustainable Agriculture: Soil and water management • Ecological farming • Horticulture • Waste management and Composting • Sustainable crop nutrition, rotation and association • Nursery management • Disease/pest control • Product storage</li> <li>• Livelihoods &amp; food security support: Crop production • Animal husbandry • Income generative activities development for income and nutrition improvement: crop diversification, off-season production, agroforestry and fuelwood, forage production and animal husbandry</li> <li>• NRM: Awareness-raising • Soil, water, waste and biodiversity management • EIA • Reforestation</li> <li>• HSE: Awareness on health and environment effects of agrochemicals • Sound agrochemical use • Promotion and use of natural crop protection methods</li> <li>• Association / NGO statute development</li> </ul>
Jul-Oct. 2000	Switzerland	Pfister farm & Jucker Farmart	Trainee	Mixed farming <ul style="list-style-type: none"> <li>• Horticultural crop production, packaging and marketing: tomato, marrows, pumpkins, courgette, melons, carrot, French beans, leek, lettuce, zucchini...</li> <li>• Cattle and pig production: animal care, dairy, haymaking &amp; silage production</li> </ul>
1985-97 & 2007 ongoing	Togo	Family-held farm & Own farm	Production manager	<ul style="list-style-type: none"> <li>• Crop Production: Cereals • Roots &amp; tubers • Fruits &amp; vegetables (pineapple, mango, citrus, banana, pepper, tomato, okra, aubergine, watermelon...) • Pulses • Oleaginous • Nursery raising</li> <li>• Animal husbandry: Rabbit, fowls, pig, goat, sheep</li> <li>• Activity planning, supervision and monitoring</li> <li>• Product processing, storage and marketing</li> </ul>

### 3. Other relevant skills & strengths

- Teaching experience - Participative learning - Extension - Environment protection and sustainable development
- Intercultural experience and good knowledge of rural areas - Insight into countryside lore and diverse communities' idiosyncrasy - Respectful and sensitive to different cultural values - Interpersonal skills: easy connection to people, good sense of humour, team spirit, ability to motivate team, leadership quality
- Inclination to community development, social justice and equity - Great interest in social and field work
- Enthusiastic, venturesome, creative, proactive, result-oriented, great organizational skills, dynamic, flexible
- Confidentiality, good adaptive capability to new situations and adverse conditions, enjoy teamwork and challenging projects - Good physical conditions - Propensity & eagerness to learn - Travelling
- Attendance to different workshops/seminars in Sustainable agriculture, fishery, certification, product export, Organic and fair trade value chain development with Helvetas, Textile Exchange, Marine Stewardship Council (MSC), Swiss Import Promotion Programme (SIPPO)...

On the whole, I have deep experience and know-how in agricultural production as regards diverse commodity cultivation and sustainable farming based on years of production activities in family-held farm, on educational background and on fieldwork. I have good grasp of different farming systems and I am well aware of production constraints that communities cope with and adaptive strategies they may develop to ensure their livelihoods.

### 4. Member of associations or professional bodies:

- IMO-CH, Institute for MarketEcology, an International certification body
- International Federation of Organic Agricultural Movements (IFOAM)
- Collaborator of ECHO, Educational Concerns for Hunger Organization, through humanitarian activities: knowledge sharing, advice, training, trial of seed of cultivars from ECHO seed bank for farming system improvement, livelihoods and food security support
- Technical Centre for Agricultural and Rural Cooperation (CTA)
- Textile Exchange (TE)
- Marine Stewardship Council (MSC)
- Accredited GLOBAL G.A.P. Auditor by FoodPLUS

### 5. Thesis/Written documents

- "Integrated Soil Fertility Management in Rice Production in Lowland: Analysis of Production System and Optimization of Mineral Fertilizer Use in Rainfed Rice Production in Lowland (North-Togo)". Master's Thesis, CRESA, University of Niamey, Niger, 2005.
- "Pesticide Management in Vegetable Production (Urban Agriculture) in Lomé". Memoir of Certificate in Urban Environment Management in South Countries, Swiss Institute of Technology of Lausanne (EPFL), Switzerland, 2001.
- "Integrated Soil Fertility Management in Vegetable Production: Effect of Organic Matter on the Efficient Use of Mineral Fertilizers by *Daucus carotae* L. and *Solanum macrocarpon* L. in the Coastal Sandy Soil of Lomé". Agricultural Engineer Thesis, University of Lomé, Togo, 2000.
- "Energy, Agriculture & Climate Change". Lecture Notes, University of Lomé, 2008.
- Development of diverse training documents in: Organic agriculture - Organic crop production, Wild harvest & Certification - ICS & Group organization - Risk analysis - Quality management - Global G.A.P. - Soil life & fertility - Composting - Good practices in pineapple production, Cocoa value chain development - HSE - Fair trade
